Opportunities

Extreme sports athletes that don't have social media platform that could make them feel comfortable enjoying in the environment that is tailored to fulfill all their needs.

Lack of one universal app for extreme & active sports

Absence of social networks that pay users for creating and curating sport content

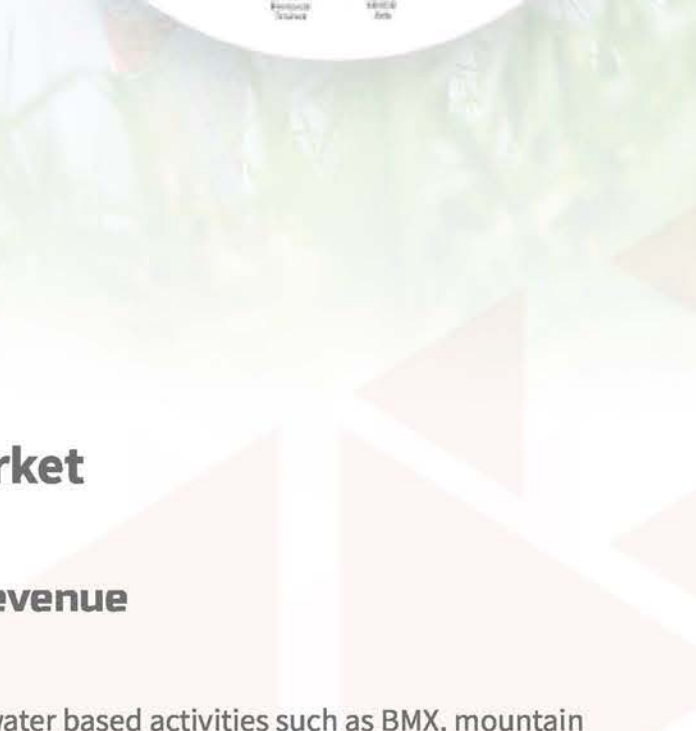

No specialized social network to track and promote achievements of extreme sports athletes

No easy way to identify and contact influencers in extreme & active sports

Lack of opportunity to engage with sponsors and brands

Our Solutions

- Incentivized Blockchain Social Media Platform for extreme and active sports athletes
- New global community connecting athletes & sports fans worldwide
- Creating and curating sport content & achievements with built-in rewards
- Addictive gaming with rewards through daily challenges and interaction
- Opportunity for great, talented and passion driven athletes to seek sponsorships from a pool of innovative and globally recognized brands
- Partnering innovative and globally recognized brands with VIHOR ambassadors

Market

Global sports - Market Total Revenue

Lifestyle sports refer to a range of land, air and water based activities such as BMX, mountain biking, skateboarding, snowboarding and surfing and encompass a wide variety of experiences often understood as 'adventurous' 'extreme', or importantly as 'alternative' from dominant or traditional sports.

These activities often involve speed, height, a high level of physical exertion, and highly specialized gear.

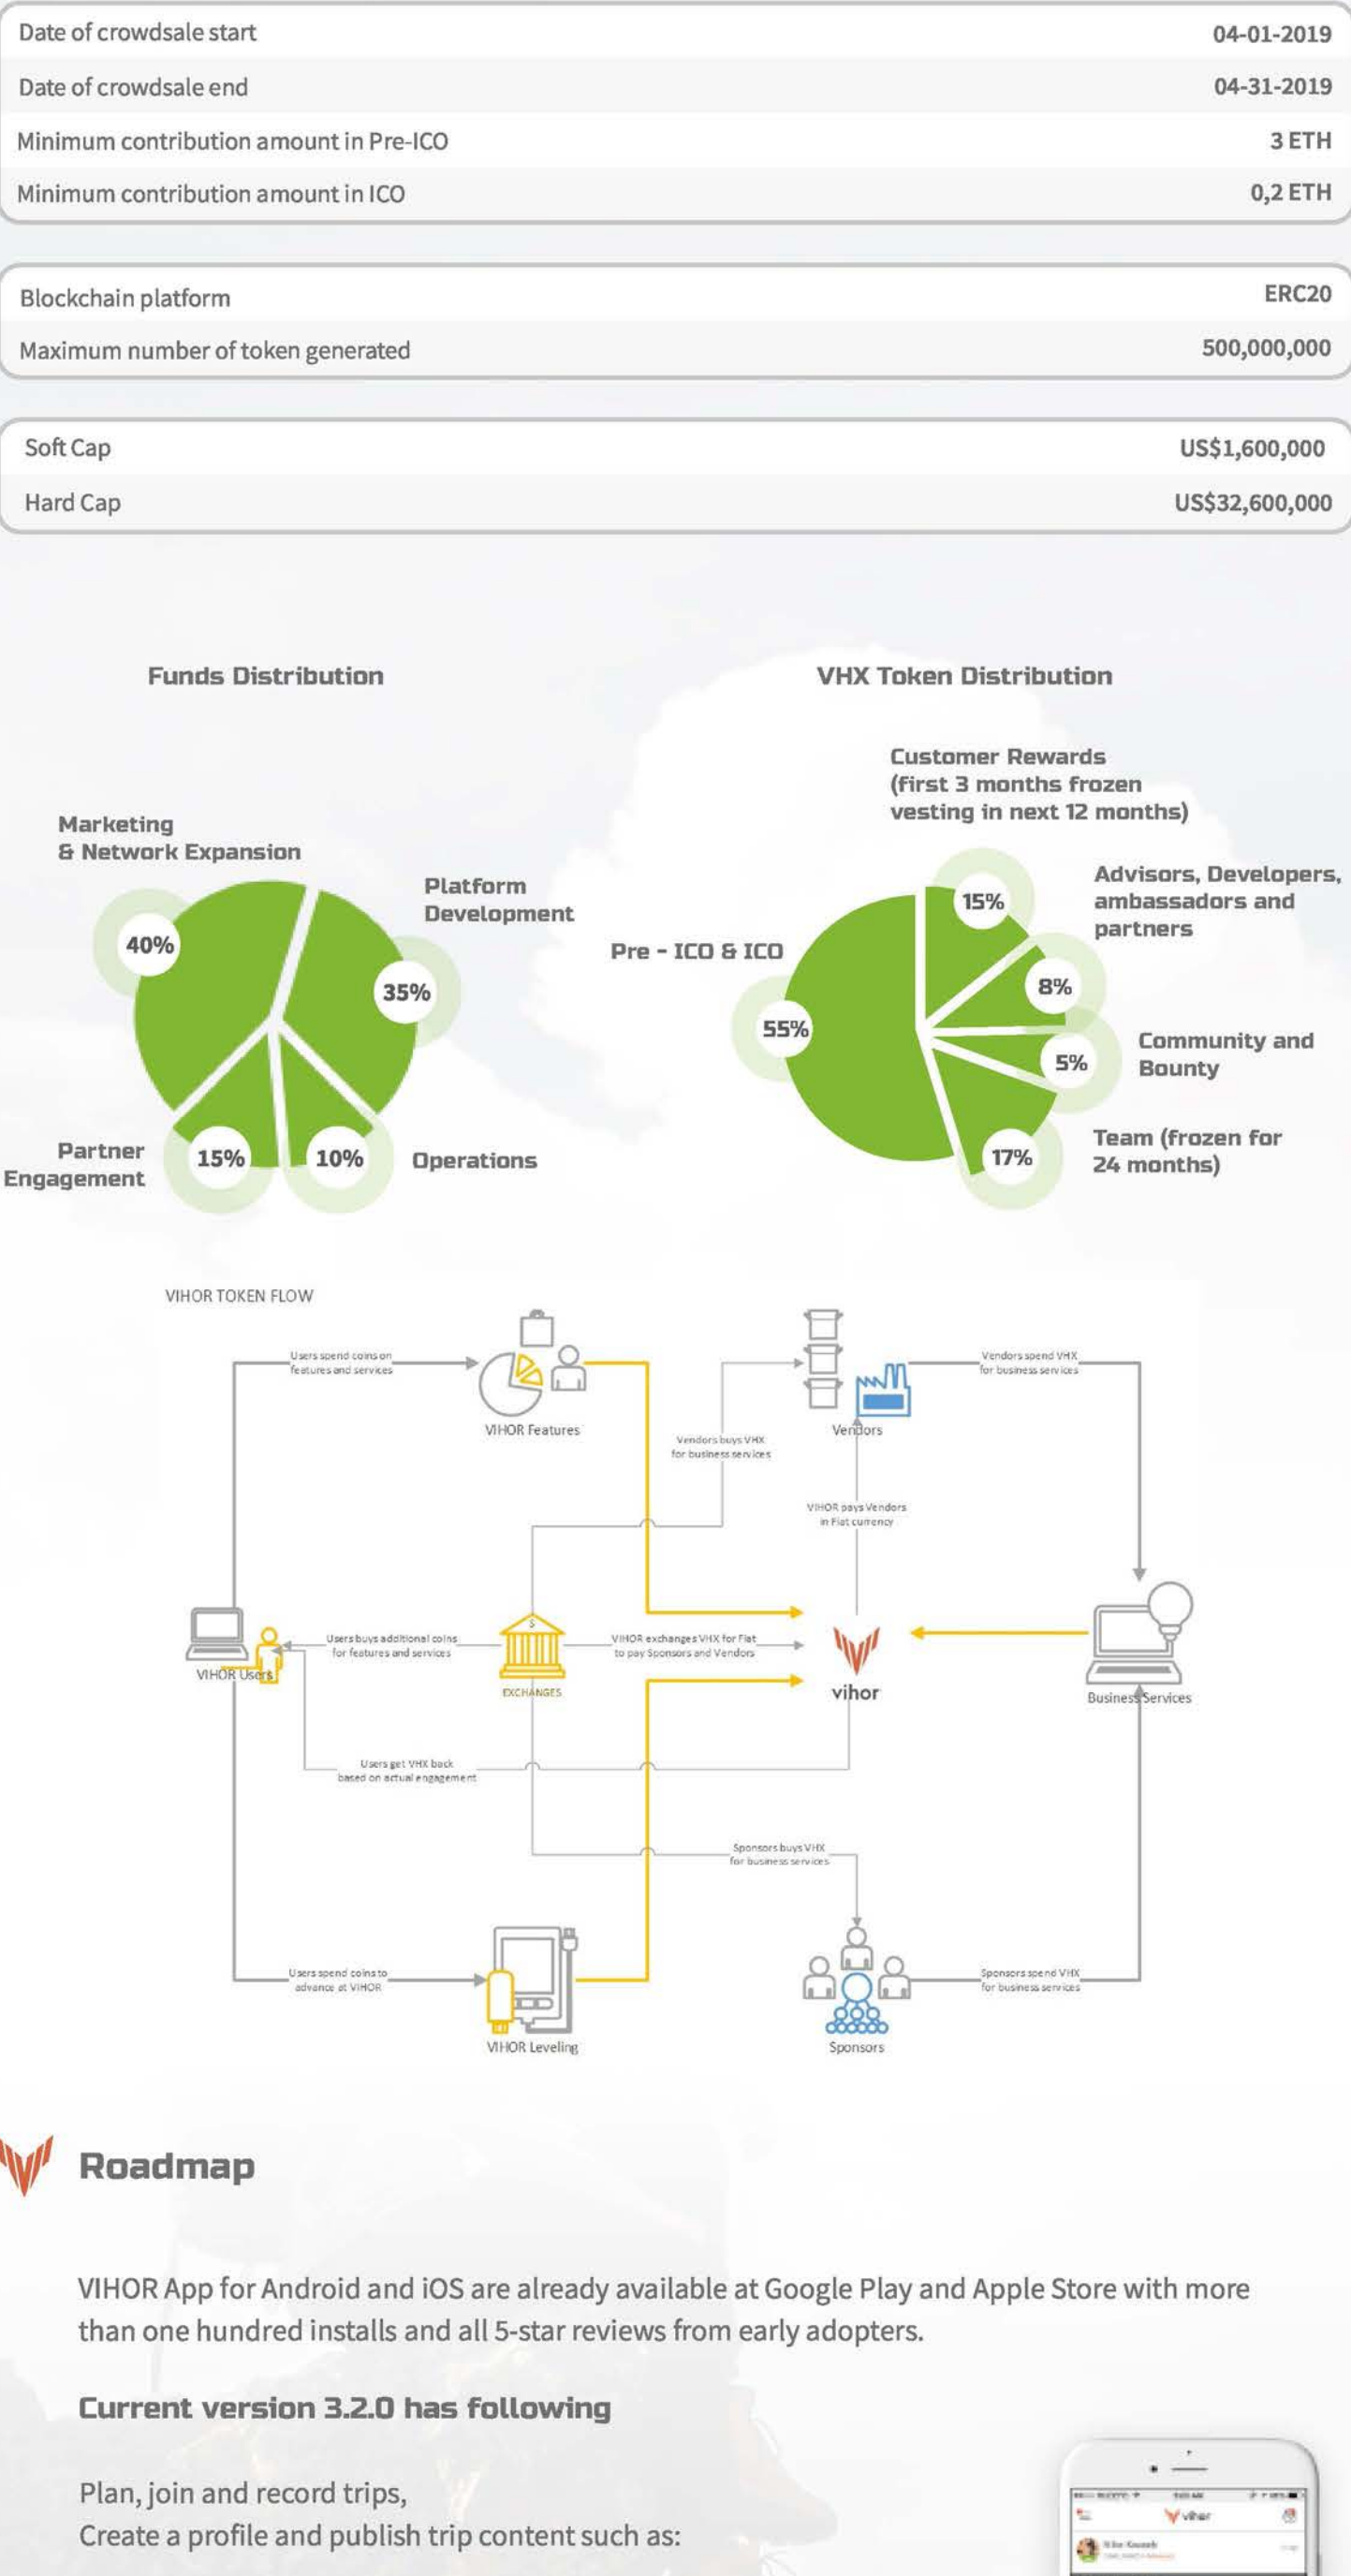

KEY ACTION & ADVENTURE SPORTS INSIGHTS

- There continues to be significant growth and engagement globally
- Estimated 290 million passionate participants, all with a shared identity
- A large and fast growing sector worth over 200 billion per annum
- With inclusion into the Olympics, the sports have moved into the mainstream
- Change in consumer demand for more experiential activities

Revenue

Comparison of revenues for the leading economies in the selected market and year.

With a market volume of US\$ 717 M in 2018, most revenue is generated in China.
